
Notice of Creditable Coverage

All MCTWF Actives Plan and MCTWF Retirees Plan Prescription Drug Coverage

The following Notice is published in accordance with regulations enacted by the Centers for Medicare and Medicaid Services, pursuant to the Medicare Prescription Drug, Improvement, and Modernization Act of 2003:

Important Notice from the Michigan Conference of Teamsters Welfare Fund (MCTWF) About Your Prescription Drug Coverage and Medicare

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with MCTWF and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice. There are two important things you need to know about your current coverage and Medicare's prescription drug coverage.

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.

2. MCTWF has determined that the prescription drug coverage offered by all MCTWF benefit packages with prescription drug coverage, on average for all plan members, is expected to pay out as much as standard Medicare prescription drug coverage pays and therefore is considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When can you join a Medicare drug plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th through December 7th. However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

What happens to your current coverage if you decide to join a Medicare Drug Plan?

If you decide to join a Medicare drug plan, under MCTWF rules you nonetheless may not drop your MCTWF prescription drug coverage. If you have both MCTWF prescription drug coverage and Medicare prescription drug coverage, MCTWF prescription drug coverage will be primary and your Medicare prescription drug plan will be secondary. If you are a COBRA beneficiary you may drop your MCTWF coverage in full, including prescription drug coverage, and enroll in a Medicare prescription drug plan. However, you will not be able to get your MCTWF COBRA coverage back later. If you do elect COBRA continuation coverage, your COBRA prescription drug coverage will be secondary to your Medicare prescription drug plan coverage. You should compare your current coverage, including which drugs are covered, with the coverage and cost of the plans offering Medicare prescription drug coverage in your area. Your current prescription drug plan provides comprehensive coverage for eligible prescription drugs, subject to preauthorization requirements for certain brand name prescription drugs and for prescription drugs within the following drug classifications: compound drugs, proton pump inhibitors (longer than a 90 day generic supply during a 365 day period, or if a brand is requested), selective serotonin reuptake inhibitors (brand name only), FDA-approved products that are lidocaine or lidocaine-containing formulations (after the first month's fill), dosage, duration and other criteria based fills for opioids and buprenorphine mono products, anabolic steroids, anti-obesity, ADHD/narcolepsy (age 20 and above), acne, and oral anti-fungal drugs, subject to generic and brand copays, as detailed in your Summary Plan Description booklet. Your current coverage pays for other health expenses, in addition to prescription drugs, and you still will be eligible to receive all of your current health and prescription drug benefits if you choose to enroll in a Medicare prescription drug plan.

When will you pay a higher premium (penalty) to join a Medicare Drug Plan?

You also should know that if you drop or lose your current coverage with MCTWF and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (penalty) to join a Medicare drug plan later. If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.
