MCTWF Rules for Continuation of Coverage beyond Age 26 for Disabled Dependent

A covered dependent is your natural or step child or child who has been placed with you for adoption, or who you have adopted, regardless of age (except that such child over the age of 26 must be unmarried), who has been determined by a physician, psychologist or psychiatrist to be totally and permanently disabled. Total and permanent disability means the individual has a physical or mental condition that is expected to continue for the remainder of his/her life and that causes him/her to be unable to engage in any regular employment or occupation for compensation, profit or gain for which he/she may be suited for in regards to education, training, or experience. If your disabled dependent child is age 26 or greater and the disability began before the child was covered under the MCTWF Actives Plan, you must present adequate documentation that the child was covered as your dependent under your health plan on the day immediately preceding your MCTWF Actives Plan coverage.
